Formats

01

Shows and brands

Music and sound design shaped around the brief, with precisely timed cues for a show or presentation.

02

Vinyl dinners

An intimate format in which records become part of the evening. Music leaves room for conversation and gives the space its character.

03

Social occasions

From the first arrivals to the evening set. Music changes its role as the occasion unfolds, while keeping a coherent character.

04

Private celebrations

Weddings and personal occasions with their own musical identity. The hosts' taste, the setting and a sense of the moment lead the selection.

A sense of the moment.

Music can bring a room together, frame an entrance and take the lead later in the evening. FOMICHÈV shapes those changes around the occasion.
